

H-200B Pneumatic Flat Hot Stamping Machine

The popular H-200 B is a good all round, robust, pneumatic hot stamping machine suitable for stamping on to:

- Paper
- Cardboard
- Wood
- Leather
- Soft Plastics
- Some hard plastics

Features Include:

- **Safety Guarding Type 1** for printing of flat objects. A simple lexan guard that surrounds the heater block with provision made for easy access to the die plate clamp. The front guard is electronically interlocked so that the machine cannot cycle unless the guard is properly closed.
- Microprocessor control
- Pneumatic cylinder driven
- Adjustable stamping pressure, temperature and speed
- Easily adjustable print position with x/y/r adjustments on work table
- Automatic and adjustable foil feed and take-up
- Adjustable stamping head height and cylinder stroke

NOTE: machines come standard with 2 hand switch operation but foot pedal control is an option that can also be specified with the order.

Milford Astor have a wide range of foil grades and colours suitable for every application.

With a state of the art design studio we are equipped to meet all your artwork and stamping die requirements.

SPECIFICATIONS

Max Pressure (Kg)	800
Die Plate Area (mm)	210 x 150
Heating Power (w)	1500
Foil feed	Electric
Air Consumption (Litre / Min)	25 (6 bar)
Dimensions (mm)	600 x 660 x 1710
Weight (Kg)	184
Max Stamping Height (mm)	280
